

Invitation to Supply Legal Services

We are pleased to invite your firm to provide legal advice and representation to our Members either exclusively or in tandem with one or more other Solicitors firms.

Summary

DriveProtect is a Membership organisation established in 2009 that offers our Members access to Road Traffic Solicitors in the event they receive a speeding ticket.

We are looking to contract with one or more firms of Solicitors who specialise in Road Traffic Law to take some of the workload from our current legal Partner.

How we pay

We can pay a monthly retainer, a fee per case, or a combination of both. To be negotiated.

What is needed

1. High quality telephone Legal Advice for Members in the event that they receive a speeding ticket or summons. This should be offered by a Solicitor who specialises in Road Traffic Law.
2. An "initial assessment" service (for Clients who do not wish to subscribe to full DriveProtect Membership).
3. Full case management which should attempt to have any speeding ticket/summons overturned before reaching Court where legally possible.
4. Representation at Court with a view to acquittal or mitigation in the event that the above 3 steps are unsuccessful.

Likely number of cases per year

This depends on how forthright your firm is in taking on cases as opposed to steering Clients towards accepting driving awareness courses, for example. However, as an indication, we typically receive 10 requests per month from current Members. We are planning to increase advertising spend to attract more new Members so this number should hopefully increase over time.

Next steps

If you are interested in taking on this account then please email me at ab@driveprotect.co.uk with your thoughts on possible fees (or we are happy to make a suggestion) and your contact details and we will come back to you to arrange a meeting.

All the best,

Adam Blair

Managing Director, Drive Protect Ltd
